

Your Voice Matters

Share your thoughts to help students in your community.

The Minnesota Department of Education is looking for community members to participate in Community Review Committees to make sure statewide assessment materials are fair and represent *all* Minnesota students.

Community Review Committees will review the Reading, Mathematics, Science, and Alternate Minnesota Comprehensive Assessments (MCAs) to make sure the test questions are equitable, culturally affirming, and reflect the rich diversity and experiences of Minnesota students.

Community Review Committees meet virtually 1–3 days throughout the year. Participants will be paid an honorarium for participating and are eligible to receive a lunch reimbursement.
